

## Sagewood April News

*Empowering a community of learners and leaders*

I hope you all had an enjoyable spring break. It is hard to believe that we are nearing the end of the school year. We have a lot to accomplish over this last bit of school so attendance continues to be important for all students. Our great custodial staff spent spring break clearing the building of all the germs that were out and about so I am hopeful that this will support all to be healthy to finish the school year. Please have your child check the lost and found when they return to school as it was getting pretty full before spring break.

April 3rd marks the beginning of preschool registration that will run through May 17th. This is new to Sagewood families as we will be entering our second year with a preschool program but also for the district as a whole. Preschool registration will be completed fully online this year, there will not be any paper applications handed out. Applications and information will be located on the school district website: [www.natraonschools.org](http://www.natraonschools.org) starting April 3rd. If you or anyone you know is interested in applying for preschool in Natrona County and need access to a computer please have them contact the office at Sagewood so we are able to support this process. As always, if you have any questions about this please contact the office.

April 9th we will be holding our student led conferences. Before break you completed a preference sheet and this week we will be sending home a confirmation time for you and your child to come and celebrate the learning that is happening in their classroom. This block of time there will be other families in the classrooms so if you need to talk one on one with your child's teacher please make sure that you contact them at a different time. We can't wait to see all of you Tuesday the 9th to celebrate your child and what they have accomplished so far this year.

WYTOPP testing is coming and I want all students to have a great start to their schooling next year. The more focus and effort they put on this testing the better it will be with their transition to the next school year. It will give us an accurate measure of what they know and are able to do. Your child's teacher will communicate testing days with you so please support your child with plenty of rest, a good breakfast at home or school, being on time to school and positive thoughts towards doing their best.

Thank you for all the support you give sagewood, your students and for allowing us to spend our days with your amazing children.

:) Mrs. Lavin
